Watchlist & Review | [Day Trading](#)

Monday two gappers chilling around 30-40% not super exciting yet. Waiting for some better price action, ideally frontside only. Otherwise only near big support and than range trading.

Tuesday flat market.. low expectations, if anything does show.. get in and get out. For swings we wan't to figure out when to re-enter.

Watchlist | [Swing Trading](#)

- [SOFI](#)
 - BIG buy around \$14 MAJOR support zones.
- [XL](#)
 - \$3.75 looks to be new floor. Would be a great accumulaiton I beleive. Down 85%+ from ATH's.
- [OTLY](#)
 - \$7.9 floor forming. Down 75%+ from ATH's. MC finally below 5B.
 - \$10.3 maybe exit or selling CC's
- [SBEA](#)
 - SPAC taking Black Rifle Coffee Public, strong support between \$10-\$11
- [QS](#)
 - \$22.5 temp floor coming in I've been accumulating a bit early. Could see retest of \$27.5.
- [SPCE](#)
 - Started accumulating but too soon \$16.95 avg. Nice support now around \$14 would buy more.
